

JUAN ANDRADE

Grade 12

La Trompeta

Acrylic paint

Norton Museum of Art Inspiration: *La Guitare* (The Guitar) by Pablo Picasso

I created a cubist artwork with geometrical four-sided shapes. I made each shape different lively and vibrant colors to grab viewers' attention. Within the shapes, I placed pieces of a trumpet inside. For the trumpet I used realistic colors of a trumpet including different shades of gold and silver. I placed a heart in the top left to show the love and passion one may have for the instrument or just music in general. To make the center pop out, I made the background a nice dark and warm maroon color.
