To My Best Friend

Mixed media

Norton Museum of Art Inspiration: *Child Behind Screen Door* by Erika Stone

With this piece I hoped to recreate a favorite memory of mine that I got to spend with my best friend. I was inspired to capture the moment as if it were happening again by focusing on facial expressions and using vivid colors. I used a mix of mediums to catch attention from different areas of the piece. With all the elements combined, I can now look at this artwork and remember the love I have for my best friend.
