*The Sacred Mother with her Child*

Artwork Inspiration: *Madonna and Child* by unknown artist

This artwork represents how close a child could be with a mother; I show this by incorporating the two bodies together in order to show how a mother and child are always stuck together. My mother and I have an inseparable relationship; therefore, I wanted our bodies to be connected to show that we are one and always will be. A relationship between these two is beautiful in my opinion, by putting flowers under the statue shows the beauty of the relationship between the two. Lastly, I put a small rose headband on the mother to show elegance as well.
