age 13

Mixed Media Collage on Canvas Board  
Teaching Artist- Ingrid Sanchez

These two panels were created for the Martin Luther King Coordinating Committee of Palm Beach Council. The work is a celebration of Dr. King's Legacy. As a class, we went over the history of the Civil Rights Movement and we chose a quote by Dr. King that best exemplified the group's feelings towards the future. We used a variety of techniques ranging from drawing and cutouts, to painting. What was memorable as an educator was the process of experimentation; seeing each student discover a new technique and combining mediums was absolutely rewarding. The overall size is 36"x 48" inches.
